

I would go to brilliant Australia because I really want to see all the amazing animals they have in store for people to see, such as the Legendry King Cobra. On my adventure I would take my brother and my Dad. To conquer this challenge I would take my torch, sleeping bag, sun cream, first aid kit and a tent. I have chosen these items because they are absolutely essential for going on an adventure.

I would take my torch because in the night I might go looking for the scariest animals! I would take my tent and sleeping bag because then I can sleep peacefully. Sun cream is necessary and I know by Naomi's nightmare of nature show how hot it will be (find out more by this [link:www.bbc.co.uk/cbbc/shows/naomis-nightmares-of-nature](http://www.bbc.co.uk/cbbc/shows/naomis-nightmares-of-nature)). I chose a first aid kit because if someone gets injured we can fix it as soon as possible.

When I go on this adventure I would feel bad for leaving my Mum and sister, but I guess they don't like vicious animals like snakes and other cold blooded animals! I am completely the opposite and would feel excited by all the cute and vicious animals!

Ethan, aged 9
