

# FREE EVENT!

## Lower Key Stage 2 teachers Year 3/Year 4 pupils

## Exploring the Arctic!

Come on an adventure with Wicked Weather Watch (WWW) on this Arctic climate change day to think about whether the Arctic will still be a 'frozen kingdom' in 2050?

*Would you like to become an explorer for the day, witnessing some of the Arctic's key physical (natural) and human features in the process?*

*Do you wish to know more about the area at the 'top' of our planet and understand why it is like it is?*

*Are you keen to discover more about the impact of climate change upon the Arctic and consider how you might reduce your carbon footprint?*

*Would you like to question a real life explorer about their first-hand experience of the Arctic?*

If the answer to any of the above questions is **YES**, then read on!

Join WWW for a fun-filled day of creative learning and looking at climate change through the eyes of the Arctic. Sessions include\*:

- Geography with the Arctic Alive giant floor map
- D&T: Food technology with The Bertinet Kitchen
- Street Dance with Jukebox Collective
- Meet WWW Explorer Hazel Richards

\*Subject to confirmation.

**Up to 10 pupils and 2 members of staff per school may attend\*.**  
**Places are allocated on a first come, first served basis.**

\*Numbers are limited to ensure more schools get the opportunity to participate. Many schools choose to take eco/green teams or school council who then return to school and share their learning.

Several curriculum areas (KS2 science, geography, dance and D&T: Food Technology) will be visited throughout the day, in addition to the SMSC strand and values curriculum.
